

Kelly Tarlton's Ocean Ranger Night Sample Itinerary 2018

We focus our Ocean Ranger Nights on the camping style atmosphere that would have been present when the first Antarctic explorers were making history not only discovering Antarctica, but racing to be the first to the South Pole.

In addition to this, participants will get an exclusive tour through the aquarium learning fascinating facts about all of our animals from their expert hosts.

This itinerary is a guide only and is subject to change depending on the host, the group size, the age and enthusiasm of the group.

Day of arrival:

- **7.00pm** The Ocean Ranger Night starts with a talk by the Host about Antarctica in preparation for your tour through our replica of Scotts Hut. The host will also describe what to expect from the evening as well as introduce some of the animals that live here at Kelly Tarlton's.
- **7.30pm** Walk to the aquariums main entrance and start your tour by exploring Scotts Hut – this is a replica of the original hut that is over 100 years old and still stands in Antarctica today!
