Who Eats Who Worksheet

Year 7 & 8

4. Draw a food web of one of the worlds you saw today. Use arrows to show which way the energy will flow through that ecosystem.

5. Outline the importance of microorganisms in the different ecosystems you have seen today. What would happen if the microorganism ceased to exist?

6. Describe how the shape and position of an organism's mouth and teeth determine the foods they eat.

7. List 3 different problems that could cause a food web to become unbalanced. Provide some possible solutions to the problems.

Problem	Possible Solutions
